## B.Y.O.D.

Cartwright School will be allowing **High School students** (grades 9-12) to bring their own devices to use in class. Prairie Spirit School Division has made some changes to their internet provider and feel that we now have the capacity to offer students the opportunity to use their own machines. We are advising students that the device should have a keyboard and the device is to be used for academic purposes. This is a trial run with the intentions of having the option to bring your own device carry through to next year.
